ABSTRACT	1
1. INTRODUCTION	1
2. LEAST SQUARES PLUS MANUAL SPLITTING (LSMS)	6
3. TOTAL LEAST SQUARES (TLS)	8
4. WEIGHTED JOINT MINIMIZATION (WJM)	12
5. CONSTRAINED JOINT MINIMIZATION (CJM)	14
6. DIRECT ESTIMATION (DE)	19
7. EXAMPLE SIMULATION RESULTS AND DISCUSSION	22
8. SUMMARY	30
9. REFERENCES	31
APPENDIX: SUMMARY OF ESTIMATION ALGORITHMS	33

FIGURES

Figure 1. Block diagram for noisy observations of a system with gain and bias	3
Figure 2. Alternative interpretation of Figure 1	4
Figure 3. Example geometry of LSMS result	8
Figure 4. Example geometry of TLS result	11
Figure 5. Example geometry of WJM and CJM results.....	14
Figure 6. Block diagram for bias-free version of the estimation problem with m_x and m_y removed.....	20
Figure 7. Example results for five estimation algorithms; true gain is 0 dB	23
Figure 8. Example estimation errors for the case $SNR=20$ dB, $r = -10$ dB.....	23
Figure 9. Example estimation errors for the case $SNR=20$ dB, $r = 0$ dB	24
Figure 10. Example estimation errors for the case $SNR=20$ dB, $r = 10$ dB	24
Figure 11. Example estimation errors for the case $SNR=10$ dB, $r = -10$ dB.....	25
Figure 12. Example estimation errors for the case $SNR=10$ dB, $r = 0$ dB	25
Figure 13. Example estimation errors for the case $SNR=10$ dB, $r = 10$ dB	26
Figure 14. Example estimation errors for the case $SNR=0$ dB, $r = -10$ dB.....	26
Figure 15. Example estimation errors for the case $SNR=0$ dB, $r = 0$ dB	27
Figure 16. Example estimation errors for the case $SNR=0$ dB, $r = 10$ dB	27
Figure 17. Example estimation errors for correlated noise environment.....	29
Figure 18. Example estimation errors for the case of inaccurate r values.....	29

TABLES

Table A-1. Mathematical Constructions Leading to the Five Algorithms.....	34
Table A-2. Preparation Steps Common to the Algorithms	35
Table A-3. Basic Algorithm Results	36
Table A-4. Additional Algorithm Results.....	37
Table A-5. Additional Algorithm Results.....	38
